

Agenda - Continuous Lifecycle Online 2021

May 10

09:00am BST	Welcome address	Team of Continuous Lifecycle
09:15am	Beyond DevOps metrics – technical, business, and culture metrics for the software defined business	Michael Coté (VMware)
10:15am	Resilience Engineering, DevOps, and Psychological Safety	Tom Geraghty (Red Hat)
11:15am	How stopping calling software rubbish helped us become better developers	Reetta Vaahtoranta (The Guardian), Jonathan Herbert (The Guardian)
12:15am	Break	
01:15pm	Day 2 Operations In A Serverless World: Reflections From Building LEGO.com	Nicole Yip (The Lego Group), Mathilde Pind (The Lego Group)
02:15pm	Hashicorp Vault to secure infrastructure, kubernetes and legacy applications in an enterprise context	Cristian Prevedello
03:15pm	How to make OKRs work	Juan Pablo Buritica, Sarah Wells (FT)
04:15pm	Keynote: Internet Apocalypse 2020!	Anne Currie (Container Solutions)

May 11

09:00am BST	Welcome address	Team of Continuous Lifecycle
09:15am	Keynote: How To Love Kubernetes and Not Wreck The Planet	Holly Cummins (IBM)
10:15am	Lost production and not sure why? Track your code releases!	Nikita Lohia (FT)
11:15am	A rampantly pragmatic approach to migrating deployment	Jason Maude (Starling Bank)
12:15am	Break	
01:15pm	Using Prometheus to improve your continuous delivery	Lili Cosic (Red Hat)
02:15pm	Continuous Non-Functional Testing of Microservices on K8s	Mario-Leander Reimer
03:15pm	Infrastructure Pipelines	Tim Fletcher (ThoughtWorks)
04:15pm	Kubernetes build and deploy pipelines in the world of AI/ML	Erin Willingham

May 12

09:00am BST	Welcome address	Team of Continuous Lifecycle
09:15am	How NOT to learn Docker and Kubernetes from scratch (with atypical workloads)	Matthias Helletzgruber (Nuance)
10:15am	Continuous Cluster Security Scanning with Open Source Tools	Timo Pagel
11:15am	Automating the Enterprise with Kubernetes Operators	Adam Sandor (Container Solutions)
12:15am	Break	
01:15pm	Where do we go from here? A look at what's next in the container space	Anais Urlichs (Civo), Sascha Haase (Kubermatic), Tim Pearce (BBC), Beatriz Martinez (Isovalent)
02:15pm	Level Unlocked: GitOps to the Edge and Infrastructure Provisioning	Katie Gamanji (CNCF)
03:15pm	Enhancing OPA/Rego's Type Checker	Mandana Vaziri (IBM), Ansu Varghese (IBM), Torin Sandall (OPA)
04:15pm	Keynote: Identifying Hidden Dependencies (with Chaos Engineering and Telemetry)	Liz Fong-Jones (Honeycomb)
